**Press Release – 1st November 2006
Essen 2006**

TDS Launch Aviation Access Control Edition At Security Essen

TDS a leading provider of Enterprise-Wide Access Control Solutions launched the **CoreAccess** Aviation Edition at the Security Essen Exhibition

The October 2006 event was the fair's 17th year and with a total of 1,036 exhibitors and over 40,000 trade visitors made it the World's largest Security Exhibition.

The **CoreAccess** Aviation Edition has been designed to cater for the high security environment required by recent updates to Aviation Security. TDS currently provide industry specific Access Control solutions for education, pharmaceutical, government and multi-national organisations.

The **CoreAccess** Aviation Edition comprises of the **CoreAccess** Software application, integrated Kaba Benzing Hardware devices and the latest in Smart Card Technology. This provides airports with a best of breed solution for controlling and monitoring the movement of passengers and staff. Speaking at the launch Frank Hart, Managing Director, TDS (Time Data Security) Ltd said, "the **CoreAccess** Solution will provide the aviation industry with the latest security technologies whilst retaining the flexibility to adapt in line with international aviation security standards and future technical changes".

The **CoreAccess** Aviation Edition has recently been selected by Aer Rianta, the owner and operator of the three major airports in Ireland to cater for the extensive Access Control and Security requirements at Dublin, Shannon and Cork Airports. Other aviation clients include Aer Lingus, DHL, FLS Aerospace, Servisair and Shannon Aerospace.
