Press Release – 22nd August 2006

GlaxoSmithKline

One of the World's Leading Pharmaceuticals Selects CoreAccess

GSK, have selected **CoreAccess** to cater for their extensive site control requirements in their Carrigaline facility.

Headquartered in the UK and with operations based in the US, GSK are one of the industry leaders, with an estimated seven per cent of the world's pharmaceutical market. As a company with a firm foundation in science, GSK have a flair for research and a track record of turning that research into powerful, marketable drugs. Every hour GSK spend more than £300,000 (US\$562,000) to find new medicines.

The proposed **CoreAccess** solution is a comprehensive Enterprise Wide Security Management system. Combined with the leading edge Kaba Hardware, **CoreAccess** will provide a seamless and unobtrusive solution to all GSK's on-site security and safety needs. With its 'Total Access' strategy, the **CoreAccess** solution satisfies the primary need of GSK: controlled, highly secure access to buildings and offices through the use of Kaba terminals and turnstiles.

Safety is a critical element for GSK, so the Emergency Headcount module was an essential part of the solution. Pre-set alarm conditions will automatically trigger a headcount report in the event of an emergency. People can 'swipe if safe' at a predetermined intelligent device in a safe area. Using this information **CoreAccess** uses mustering to produce a 'missing list'.

The proposed **CoreAccess** solution integrates fully with all **CoreTime**, **CorePay** and **CorePersonnel** modules currently in use in GSK.

This contract further strengthens TDS Ltd's position as a leading provider of Access Control Solutions to global organisations.
