Press Release – 29th May 2009

INSTITUTE OF TECHNOLOGY
TALLAGHT (ITT Dublin)

IT Tallaght Implement TDS' Time & Attendance Devices

Institute of Technology Tallaght (ITT Dublin) have selected TDS' Time & Attendance clocks for their extensive Time & Attendance requirements.

IT Tallaght is situated in the heart of Tallaght which is developing as the capital of the new county, South Dublin. IT Tallaght's mission is to provide programmes which reflect current and emerging knowledge and practices relevant to individuals and the region, as well as offering accessible programmes, delivered in a professional manner, in a friendly and supportive environment.

IT Tallaght selected the cutting edge **Kaba Benzing B-Net 93 20** Time & Attendance terminals to provide an unobtrusive method for their Time & Attendance needs. The devices have time-controlled switch off function keys which can be individually programmed, graphic transfective LCD display screen and 5 function keys which are configurable to the Institute's unique requirements. These intelligent devices retain data in case of power failure and are user friendly which make them the ideal terminals for the Institute's start into electronic time recording.

The **B-Net 9320** Time & Attendance terminals fully integrate into the Institute's existing **CoreTime** solution. IT Tallaght's existing **CoreBadge** production station enables the printing of cards onsite for students and staff. The **Kaba** hardware is being used in conjunction with the Institute's Mifare staff cards to capture all Time & Attendance recordings.

The **CoreTime** solution has also been implemented in Dun Laoghaire Institute of Art & Design, Carlow IT and Letterkenny IT.

This contract further strengthens TDS Ltd's position as a premium provider of cutting edge solutions to the Educational Sector.
