Press Release – 15th June 2007

Millipore Ireland BV

Millipore Implement TDS' Enterprise Wide Access Control Management System

Millipore Ireland have selected TDS' CoreAccess Pharma Edition Solution to cater for Access Control, Emergency Headcounting, Visitor / Contractor Mgt and ID Card Printing.

Millipore Ireland has emerged as a centre of excellence for the Bioscience manufacturing and Biotechnology sector. Located in the hub of the industry's activity in Cork since 1988, Millipore Ireland employs over 500 staff on a 38-acre site at Carrigtwohill. The plant manufactures plastic membrane filtration devices and plastic membrane films using technologies including membrane casting, plastic injection moulding and device assembly.

The **CoreAccess** system provides Millipore with full control over who is allowed access through any controlled point at any time of any day, thus ensuring onsite security and safety in an unobtrusive manner. The **CoreAccess** solution is fully integrated with the leading-edge Kaba Benzing Hardware devices for Access Control.

Millipore have selected the **CoreAccess Emergency Headcounting** functionality. In the event of an emergency or evacuation, people can 'swipe if safe' at a predetermined intelligent device in a safe area. A real-time 'missing list' is produced which is reduced as each person swipes at the designated safety points.

The **CoreAccess Visitor / Contractor** system enables Millipore to register visitors / contractors on and off site and prints an ID badge so that they are easily identified. The **CoreAccess** software enables Millipore to keep accurate records of visitors/contractors on-site as required by industry regulations and health & safety legislation.

The **CoreBadge** solution provides Millipore with a user-friendly ID Badge Making system. The **CoreBadge** production station captures the data and prints / encodes the card.

This contract further strengthens TDS Ltd's position as the leading provider of integrated Access Control solutions in the Pharmaceutical Sector.
