Press Release 14th July 2011

PFIZER

TDS Maintenance Services Division have been selected by Pfizer Ireland Following a Comprehensive Tendering Process

Pfizer is one of Ireland's leading employers and the largest pharmaceutical sector investor and employer. The Irish operations manufacture some of Pfizer's best selling and newest medicines, total capital investment by the company in Ireland exceeds \$7billion. One of the first pharmaceutical companies to locate in Ireland the business now boasts over 5,000 colleagues across numerous locations based in Cork, Dublin, Kildare and Limerick.

TDS' Maintenance Services Division was selected to support Pfizer's CCTV infrastructure across all facilities in Ireland. TDS will provide Pfizer Ireland with a consolidated maintenance contract for Access Control, Time & Attendance, CCTV and PIDs (Perimeter Security Systems). The combined maintenance contract enables Pfizer Ireland to have a single maintenance provider for all systems which allows for unique benefits; including significant cost savings while providing the insurance that their critical security systems are maintained to maximum efficiency and robustness with a unified procedure for maintenance and support. TDS' support desk allows Pfizer Ireland to log any faults onsite directly to our dedicated support team ensuring an efficient response.

TDS' unified Security Division continues to win extended service contracts. This contract demonstrating TDS' commitment to provide leading services to our Clients.
