Press Release – 12th January 2005
Shannon Aerospace

TDS Integrate With SAP At Shannon Aerospace

Shannon Aerospace have become the latest organisation to select the TDS Kaba Solution to integrate with their SAP systems.

Shannon Aerospace specialises in the Heavy Airframe Overhaul of narrowbody aircraft. A subsidiary of Lufthansa Technik, Shannon Aerospace performs structural maintenance checks on Airbus, Boeing and McDonnell Douglas narrowbody aircraft types. Located in a purpose-built facility in Shannon in the West of Ireland, Shannon Aerospace currently employs more than 800 highly skilled people and has been in operation since 1992.

The TDS solution provides for the distribution of intelligent control terminals from Kaba which integrate with both SAP PP and HR modules and the **CoreAccess** (Access Control) Software. The Kaba Hardware solution will utilise the latest Bedanet XML internet based terminals which run in a wireless environment. The solution caters for Shannon Aerospaces' extensive security requirements in line with recent enhanced security measure for airside and hangar protection at the Shannon Airport facility. The SAP-certified interface ensures faultless data exchange between the individual SAP modules and the data collection devices. This interface is kept current with all new SAP technical developments.

This contract further strengthens Kaba Benzing / TDS's position as a certified integration partner of SAP.
