## Press Release – 13<sup>th</sup> February 2006 Superquinn

### Superquinn Select TDS' Biometric Time & Attendance Solution

Superquinn have selected TDS Ltd's Biometric Time & Attendance solution to cater for their extensive employee Time and Attendance Requirements.

Feargal Quinn opened his first shop in 1960, and so began a progression that has led to Superquinn owning nineteen large shops and nine Shopping Centres. Their presence is mainly located in the Dublin area but they are expanding nationally with shops in Kilkenny, Carlow, Clonmel, Dundalk, Waterford, and most recently, Limerick.

Superquinn have selected the TDS Biometric Time & Attendance solution to meet the unique challenges presented by the retail industry. The TDS Biometric solution will provide Superquinn with the ability to effortlessly track and monitor an employee's attendance in a manner beneficial not only to supervisors and staff but one that also promotes the organisations objectives for the future.

Due to the nature of the retail industry and with the regular addition of temporary and seasonal employees, staff turnover tends to be higher than in other sectors. With the implementation of the TDS biometric solution, Superquinn can expect to see an immediate return on their investment. Superquinn will no longer need to create new cards for joining employees or cancel cards for leavers as an employee can easily and securely be added to or removed from the system. In addition the issue of lost, stolen or forgotten cards will become obsolete as an employee's identification is always with him or her.

Buddy Punching can be a major cost for many organisations forcing supervisors to monitor employees punching in and out. This is not only a waste of supervisor's time but can result in bad feeling between management and employees. Through the implementation of the Core solution Buddy Punching will no longer be an issue. It is estimated that Superquinn can expect to experience savings of up to 5% on payroll as a result of the elimination of buddy punching.

This contract further strengthens TDS Ltd's position as a premium provider of cutting edge Biometric solutions to leading organisations.
