Press Release – 27<sup>th</sup> June 2006  
Tibotec

## Another Leading Pharmaceutical Selects CoreAccess

Tibotec, have selected CoreAccess to cater for their entry / exit security management requirements in their Little Island Cork facility.

Tibotec, established in 1994, is a pharmaceutical research and development company dedicated to the discovery and development of innovative new drugs for HIV/AIDS and other infectious diseases of high unmet medical need. At the end of 2005, there were more than 400 people employed by Tibotec. Tibotec's facility in Little Island is responsible for research, development and financial management.

The **CoreAccess** solution combines 'best in class' Kaba Hardware with the 'best in class' CoreAccess Enterprise Wide Security software, operating on a secure IT Infrastructure, into a single integrated solution, that will provide consistency, standardisation and resilience for access control management in Tibotec's Little Island Facility.

TDS will also provide Tibotec with Legic Smart Card Technology encompassing standard plastic cards equipped with an embedded integrated circuit (IC) chip to assist the operation of the Kaba Access Control devices.

TDS will provide Tibotec with full implementation and on-going support services.

This contract further strengthens Core's position as a leading provider of Access Control Solutions to global organisations.
